01 PROFILE — ~/readme

Level 2 network technician based in Marbella, Spain. Since 2022 I have run enterprise LAN/WAN and SD-WAN networks for Telefónica through Zelenza. Trained in networked systems, Cisco and cybersecurity; after hours I design, code and ship my own products with Astro, Svelte, React, Supabase, Kubernetes and AI. Looking for networking, NOC or IT infrastructure roles in an international team.

02 EXPERIENCE — /var/log/career

OCT 2022 – NOW · CURRENT

Level 2 Network Support Technician

Zelenza · Telefónica account · Spain

> Maintain and manage LAN/WAN networks and investigate service incidents.
> Troubleshoot Level 2 tickets with Cisco Meraki and Aruba Central SD-WAN tooling.
> Coordinate with external providers on incident resolution and maintenance windows.

MAR – JUN 2019

IT Support Technician · Level 1

Hospital Quirónsalud Marbella · Marbella

> Daily checks of the hospital's IT equipment.
> Maintenance of critical equipment in operating theatres, admissions and emergency care.
> Resolved user and device incidents through the hospital ticketing system.

03 INDEPENDENT PROJECTS — /proc

2026 — **Splimio** app.splimio.com — LIVE

Live PWA for shared household expenses: AI receipt scanning, real-time balances and settle-up with the minimum number of transfers.

2025 – 2026 — **Camping Buganvilla** — IN USE · PRIVATE

Internal operations platform for a campsite: plots, vehicles, tasks and AI reports; QR map and 3D-printed key tags.

2026 — **Intradexia** intradexia.com — IN DEVELOPMENT

AI-assisted algorithmic trading SaaS: backtesting, paper and live execution, a central risk engine and containerised algorithms.

2026 — **Homelab K3s** — RUNNING

Proxmox and a high-availability K3s cluster (3 control-plane, 4 workers) with MetalLB, NFS storage and self-hosted services.

04 CORE SKILLS — /etc/stack

- L1 / L2 network support
- LAN / WAN operations
- SD-WAN troubleshooting
- Incident & ticket handling
- Vendor coordination
- Automation & AI

05 NETWORKING & TOOLS — /usr/bin

- Cisco Meraki · Aruba Central · Fortinet
- BGP · VLAN · VPN · High availability
